Objective

Web Developer with 6+ years of experience in PHP seeking full-time & part-time PHP / Yii2 / Laravel contracts.

Skills

Languages: PHP 5.6 - 8.2, JavaScript

Frameworks: Laravel, Yii2, Nova, Vue, Symfony

Deployment Tools: Git, Fly.io, Docker

Experience

Web Developer (contract)

Oct 2021 - Nov 2022

Latus Health

- Developed an API to service a mobile and web-app called YODHA.
- Maintained an API for an existing app called Reward Me Now.
- Created a web portal for YODHA and Reward Me Now.
- Trained new hires of the development team & existing account managers on how to use the new software / APIs.
- Setup deployment processes and created documentation for our APIs and codebase.

Web Developer (freelance)

Jan 2021- Current

Various

- Contract with various companies & individuals developing / fixing projects built in Laravel, Yii2, Symfony and Vue.
- Helped to refactor large PHP codebases, document processes and setup CI / CD with Envoyer.
- Worked on legacy codebases, primarily upgrading from PHP 5.x to PHP 7.x.

Web Developer

Dec 2019 - Apr 2020

Access

- Working in a team developing software with Drupal for WaterAid and Edrington.
- Train apprentices in PHP, JavaScript and software fundamentals.
- Write documentation for the maintenance and support team on the WaterAid website and Edrington's brand sites.

Junior Developer / Apprentice

Mar 2017 - Nov 2018

Pecometer Software

- Built a food delivery website with an accompanying admin panel in Yii2 called LionsPrep.
- Maintained a portal for generating / working with legal documentation for an insurance company.
- Worked on various small projects built in Yii2, Symfony and AngularJS / Angular 2.0.
